

We strive to deliver a high quality product with a high level of service at the best market price.

We strive to be the most cost effective solution for bringing material from the steel mill to the end user.

We strive to match the quality of the material with the intended use to meet customer specifications.

We realize the source of our success is in relationships and therefore we treat customers, employees, vendors, and partners with a high level of respect and fairness.

We want to be good stewards of the resources God has blessed us with by giving back to our communities and our world.
